PROFILE

I am Shreyas Roy, a final-year Bachelor of Computer Applications (BCA) student with a strong interest in Full-Stack Development. I have hands-on experience in both frontend development using React.js, HTML, CSS, and JavaScript, and backend development using Node.js, Express.js, MongoDB, and REST APIs. I have built real-world projects such as Smart AI Resume Builder & Analyzer and College Complaint Box. I have also completed certifications in Cybersecurity Fundamentals and Data Structures & Algorithms, etc, and published a research paper at the ICAHTE Conference 2026 on an AI-powered Smart Trip Planner and Itinerary Generator System.

INTERNSHIP EXPERIENCE

Fullstack Web Developer Internship

Apr 2026 – May 2026

Maincraft Technology & Solutions

Remote

- Developed and maintained responsive, user-friendly web applications using HTML, CSS, JavaScript, React.js, Node.js, and Express.js.
- Built and integrated secure REST APIs, optimized website performance, fixed bugs, and collaborated with the development team using Git/GitHub.
- Designed and developed AI-powered SaaS platforms, integrating AI APIs, authentication, databases, and cloud services to deliver scalable, subscription-based web applications.

EDUCATION

University of Engineering and Management (UEM), Jaipur

July 2024 – May 2027

Bachelor in Computer Application - SGPA : 7.10/10.0

Jaipur, Rajasthan

TECHNICAL SKILLS

Programming: JavaScript, Python, Java, C

Frontend: HTML5, CSS3, React.js, Responsive Design, Firebase

Backend & Database: Node.js, Express.js, REST API Development, JWT Authentication & Authorization, MongoDB, SQL

Tools: Git, GitHub, Railway, VSCode, Netlify

Core Concepts: Data Structures & Algorithms (DSA), Computer Networks, Object-Oriented Programming (OOP)

PROJECTS

AI Smart Trip Planner System

2024

- Developed a full-stack AI-powered travel planning web application using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT-based user authentication with secure password hashing using bcryptjs and built RESTful APIs for user and trip management.
- Designed a responsive interface that enables users to generate personalized travel itineraries, manage trips, and store travel data efficiently.

College Complain Box Application

2025

- Developed a web-based complaint management system for students to submit and track complaints online, using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT authentication for secure login for students and an admin panel to manage and resolve complaints.
- Built a responsive interface with CRUD operations for submitting, viewing, updating, and resolving complaints.

Smart AI Resume Builder and Analyzer System

2026

- Developed an AI-powered resume builder using React.js, Node.js, Express.js, MongoDB, and JWT authentication.
- Integrated AI to analyze resumes, provide resume scores, and suggest improvements based on skills and content.
- Used Socket.IO for real-time updates (such as live resume analysis, progress updates, or notifications) and implemented PDF resume generation.

CERTIFICATIONS & COURSES

Introduction to IT Architecture - LinkedIn learning (2024), Python Data Structures and Algorithms - Infosys Springboard (2025), Python for Data Science - Swayam npTEL corporation (2025), Database Structures and Management with MySQL - Coursera Organization (2026), Quantitative Aptitude Mastery & Exam & Recruitment Prep - Coursera Organization (2026), Fullstack Web Developer Internship - Maincraft Technology & Solutions (2026)

ACHIEVEMENTS & EXTRA CURRICULAR

- Actively participated in college technical workshops, seminars, and coding events, enhancing problem-solving and technical skills.
- Published a research paper at the ICAHTE 2026 International Conference. Participated in the ACE Hack 2024 hackathon as a team member, developing an innovative software solution. Represented my college as a football player.

PROFESSIONAL STRENGTHS

- Quick Learner
- Problem Solving
- Analytical Thinking
- Team Collaboration
- Adaptability
- Continuous Learning
